ASCE+

Advanced Skincare Complex for Everyone

ASCE+ Derma Signal Kit SRLV-S

As a professional cosmetic containing the world's first stem cell-derived pure exosome which was created by ExoCoBio Inc.'s innovative technology ExoSCRT™, ASCE+™ Derma Signal Kit SRLV-S helps efficiently increase skin moisture and skin rejuvenation, anti-aging.

* Containing EXOSOME by ExoSCRT™

100%
ASC-EXOSOME

600%
increase in
collagen

300%
increase in
elastin

EXOSOME by ExoSCRT™

- * Hyaluronic acid
- * 6 Minerals
- * 9 Growth factor complex
- * 19 Amino acids
- * 6 Peptides
- * 4 Coenzymes
- * Vitamin
- * Retinol

What is ExoSCRT™

Exosome, an 30~200 nm endoplasmic reticulum that is secreted for cell-to-cell communication, plays an important role in influencing the microenvironment around cells.

ExoSCRT™ is an innovative technology to separate and refine 0.5% pure exosome from stem cell conditioned media. Exosome, created by ExoCoBio Inc.'s ExoSCRT™, has the same effect of stem cells and helps the vitalization of natural skin energy by affecting skin cells effectively.
